

Beaded Popcorn Garland

Designed by Julie A. Bolduc

This garland uses a combination of beads and popcorns which takes a little longer to make but the ending result is well worth the effort. I used assorted beads and a variegated Christmas yarn but you could use one type of bead with a solid color yarn for a completely different effect. Either way, it would look wonderful on any tree.

Materials Needed

Small amount worsted weight acrylic yarn. Red Heart Christmas yarn was used in the example

Assorted beads with holes big enough for the yarn to go through. 1/3" to 1/2" in size.

Tapestry needle with a thin enough eye that will fit through the beads yet big enough to put yarn through.

Yarn Thickness: 4mm

Gauge: 4sc=1" or 4 popcorns are 3"

Finished Size: 1 1/4" wide x desired length

Skill Level: Beginner

Instructions

String all beads on. I strung them on 3 of a kind at a time. Be sure you string on a multiple of 3 beads. You want about 3 beads for every 1 1/2" of garland you want to make.

Ch3, work 5 dc in 3rd ch from hook. Take hook out of loop and insert into first dc made, then back into the loop you dropped. Bring the loop through the first dc. Ch1. Bring up 3 beads and chain 4. Pop. 3 beads, pop. Repeat in this way for your desired length. Fasten off and weave ends into popcorns.
