Block Name & Design Disclaimer:

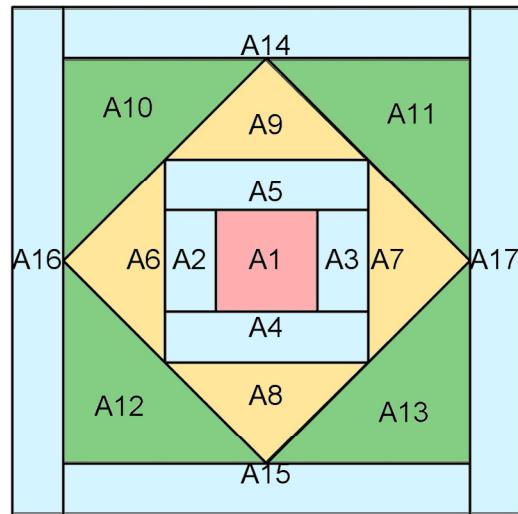

I do not know if this block exists anywhere else. If it does, I do not know the actual name for it. This one came out of my head. If you know the actual name of this block, I would not mind changing it and giving credit where credit is due. The name for this block is named for a town in Maine. Since I live in Maine, any blocks that come out of my head, and I cannot find the name anywhere, I will be giving it a name of either a county, town, river, lake, or mountain in Maine.

This pattern sheet just provides what materials you need and what size pieces you need to make a 10" block and in what order to sew the pieces of the block together. It does not go into complete detail how I put them together in the Quilt as You Piece manner, please refer to our tutorial of the Five Strip Rail Fence Block for the basic concept and instructions on how to do Quilt as You Piece for this block and all other blocks in this series.
